PROFILE

An innovative and driven software engineer with a passion for problem-solving, offering expertise in full-stack development, digital marketing, and business development. Skilled in both frontend and backend technologies, including React.js, MongoDB, and PostgreSQL, with hands-on experience in deploying and maintaining cloud-based solutions on AWS.

Adept at managing cross-functional teams and leading projects in fast-paced environments, with a strong background in social media campaign management and e-commerce development. Recognized for strong analytical, communication, and leadership skills, and the ability to thrive under pressure while delivering high-quality results within deadlines.

Committed to leveraging my technical and marketing expertise to make a meaningful impact in any organization.
